

## DESCRIPTION OF FOUNDER

Dr. J. Theodore Brown Jr is the founder and CEO of Telecare LLC a hybrid based health technology platform that facilitates access to health care and promotes the home as an option to receive certain health care services. He is originally from New York City and strongly believes that technology can enhance and make health care more accessible and affordable on a global basis.

Before Telecare LLC, Dr. Brown worked in developing and organizing technology solutions and programs for some of the most challenging mental health and substance abuse problems, as well as creating and integrating health protocols and models of home health care for the elderly and chronically ill.

Dr. Brown has a broad range of clinical experience that includes clinical program development, management, forensic consultation, research and education. He served in the US Navy Medical Service Corp. and is a Plank Member of NRMCM, Okinawa, Japan. He has served as expert witness for the U.S. Congress and represented the U.S. Clinically and Diplomatically abroad for the U.S. Department of State.

He created and received approval for the first and only FDA approved Home Drug Testing System sold over the counter. He holds a Ph.D. in Experimental Clinical Psychology from S.U.N.Y Stony Brook and currently lives in New Jersey with his wife of twenty years.

## A DIGITAL HEALTHCARE COMPANY MENTAL HEALTH SERVICES

Mental illness is a major problem in our society. There are not a sufficient number of Providers, facilities and other resources to properly care for those affected; this is especially true for persons living in rural and remote areas. Also, many Veterans returning from combat have not been able to receive proper mental health care. The use of technology would be a great help in improving access to mental health Providers and services. Telecare LLC offers mental health Providers the option and the ability to provide, and Patients/Clients to receive, mental health services in the privacy of their home from any device that allows them access to the Internet.

**Telecare LLC**

1501 Oakland Avenue, Suite D  
Millville, New Jersey 08332-0009

## CONCEPT

Telecare LLC was originally conceived with the purpose of creating a new standard of care to serve the healthcare needs of disabled Veterans. As an afterthought, we realized that if the “standard of care” we established was extended to other special needs groups, it would help improve the quality of health care for society at large

## TELECARE PRIMARY OBJECTIVES

Telecare’s primary objective is to create an integrated, virtual, technology enhanced model of health care that facilitates communication between health care Providers and their Recipients.

Telecare LLC believes that **home care** is the future of health care. We believe this is especially true for:

- Disabled Veterans
- Persons Affected by Mental Illness
- Persons Affected by Substance Abuse
- The Elderly, Disabled
- Persons with Chronic Illness
- Children with Special Needs
- Persons restricted from receiving proper health care due to weather, limited transportation and those living in remote/rural areas.

## TELECARE LLC MENTAL HEALTH SERVICES

Telecare LLC uses technology and innovative products to provide a unique array of home programs such as:

- Electronic Health Record Intake
- Mental Health Evaluation & Diagnosis
- Medication & Prescription Monitoring
- Audio Visual Conferencing
- Audio Visual Recording
- Specialty Referral & Consultation
- Education and Training
- Emergency Consultation & Support

## TELECARE BENEFITS FOR PATIENTS

Receiving Health Care at Home  
Reducing Hospital Stays  
Reducing Visits to ER  
Reducing Travel Expenses  
Reducing Missed Work Days  
Access to Health Anywhere

## TELECARE BENEFITS FOR PROVIDERS

- Creates New Revenue Streams
